

## Golden Bridge Foundation

---

**When Alejandro Tamargo was asked by his son Mark in 2013 to view a short film called “Moving On” which had been created in 2012 in New Zealand as an entry to a film festival, Al felt like he had received a six minute “movie trailer” sent by God reaffirming the message in the book he was in the process of completing!**

Marc asked his Dad what he thought of the film AFTER a good portion of “God is Love and Hell is Not - A Message of Love to All” had already been written!

The idea the author is conveying in the book is the need for mankind to be humble and to know that none of our bowls hold the entire ocean that is GOD. “Moving On” shows a girl wading out into the ocean to fetch a suitcase containing baggage she no longer needs, dumping the contents on the shore of the ocean, and then being free to move on with her life.

In the message contained in the book, you are being asked to get rid of the extra baggage of beliefs that are not serving you well and keep only those beliefs that serve to bring you closer to GOD.
